Phone: +254 707027904

SUMMARY

Full-Stack Developer with 3 years of hands-on experience leveraging creative solutions to overcome technical challenges. Developed a web application using React and Laravel at CODEFRONT Ltd that boosted user engagement by 40% within 6 months, resulting in a 20% increase in revenue. Background in lecturing with the ability to effectively communicate complex technical concepts.

SKILLS

Front-End: JavaScript, React, Redux, HTML5, CSS3

Back-End: Ruby, Rails, Laravel, MySQL, Postgres

Tools & Methods: Git, GitHub, Netlify, Mobile/Responsive Development, Chrome Dev Tools

Professional: Remote Pair-Programming, Teamwork, Communication,

EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS

Remote

Freelance Full Stack Web Developer

April 2023 – Present

Demonstrated expertise by successfully completing numerous independent and pair programming full-stack projects.

Mathmagician [[Live Demo](#)] – The calculator web application is a user-friendly and interactive tool designed to perform basic arithmetic calculations in a web browser.

- Built with: (Reactjs, Tailwind CSS, and HTML5).

Awesome Books [[Live Demo](#)] – It is useful to people who intend to keep a catalog of books with the ability to add, edit, and remove functionalities.

- Built with: (ES6, webpack, and CSS3).

Todo List [[Live Demo](#)] – A sleek web-based application that empowers users to organize tasks, manage deadlines, and improve productivity in user-friendly ways.

Built with: (ES6, webpack, and CSS3).

CODEFRONT LTD

Kikuyu, Kenya

Fullstack Developer (Part-Time)

January 2020 – Present

- Tested and optimized the UI of a photo portal web application, resulting in a notable increase in user engagement and conversion rates, securing investments and boosting revenue by 40%.
- Developed a canteen manager app as a member of a three-person development team using technologies such as React and Laravel. Now widely utilized by 3 major organizations in Kenya.
- Enhanced the user interface of our applications by integrating ReactJS, resulting in a 70% increase in positive feedback about user engagement and satisfaction.
- Implemented version control systems that improved collaboration among team members thereby saving 80% of the time used in the development and production of applications.

	MICROVERSE Remote Mentor (Volunteer) May 2023 – January 2024 - Mentored two junior web developers, providing technical support through code reviews. - Proposed improvements to code organization to improve code quality and overall performance to save over 20% of production time.
	VISION INSTITUTE OF PROFESSIONAL STUDIES NAIROBI Nairobi, Kenya Lecturer Computer Studies January 2018 – January 2020 - Trained three batches of TVET-based ICT trainees, over 100 students are now qualified ICT professionals with KNEC certifications. - Saved time for training young learners by 20% using web development study frameworks that enabled the breakdown of complex problems into small and manageable tasks. - Facilitated group projects and discussions in the classroom, promoting teamwork and mutual understanding among students.
	KENYA INSTITUTE OF PROFESSIONAL STUDIES Nairobi, Kenya Lecturer Information Computing Technology August 2015 – December 2017 - Increased student enrollment from 5 to 20 within one year through effective teaching methods. - Boosted high scores for more than 50% of students taking programming subjects such as OOP, Structured Programming, and Web Development. - Successfully maintained the school website for one year, managing high customer traction and demonstrating technical proficiency.

EDUCATION

	MICROVERSE April 2023 – January 2024 Remote Full Stack Web Development Program, Full-Time - Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux. - Developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.
	St. Paul's University, Limuru Bachelors in Business Information Technology, (IT-Major) January 2012 – October 2015 - Proficient in System Analysis and Design methodologies, ensuring efficient and effective development processes. - Experienced in Structured Programming with expertise in C and Pascal, delivering robust and efficient code solutions. - Skilled in Object Oriented Programming using C++ and Java, facilitating the development of scalable and maintainable software solutions. - Proficient in Data Structures and Algorithms, leveraging optimized solutions to solve complex problems efficiently.
